Irving Sylva

Full Stack Web Developer | Software Engineer

Weed, CA | 530.471.8089 | irvingcsylva@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

Front End: JavaScript (ES6+), HTML5, CSS3, React, Jest, Yup, Axios, Bootstrap, Next.js, Redux, Typescript, Tailwind
Back End: Node.js, Express, MySQL, REST Api, Morgan, Helmet, JWT, Bcrypt, Next.js
Databases: MySQL, MongoDB, PHP
Tooling: Git, Bash, VS Code, Vercel, SourceTree, Postman, Figma, Framer
Additional: Debugging, Deployment, Lua, Context Api, Git LFS, Database Management

PROJECTS

Exovara Labs, *Full Stack Developer* - React | Node | Javascript | Vercel   [Webpage](#) | [Github](#)
- Developed a full-stack web application with Discord integration, implementing real-time image fetching and display functionality improving performance by 60%.
- Engineered a responsive frontend using React and Bootstrap, creating reusable components and implementing modern UI/UX practices.
- Engineered a RESTful API backend with Node.js, handling Discord bot integration and image processing.
- Implemented secure environment variable management and API endpoint validation for enhanced security.

Skyline RP, *Full Stack Developer* - React | Node | Javascript | Express | MySql | Supabase   [Webpage](#) | [GitHub](#)
- Designed and developed a full-stack web application portal for Skyline Roleplay, streamlining the player application and approval process through a secure, database-driven system.
- Implemented an admin authentication system that enables staff to log in, review, approve, or deny player applications directly from a responsive dashboard improving response rate by 70%.
- Integrated Discord and FiveM forum links to enhance community connectivity and accessibility within the platform.
- Utilized React for an intuitive, responsive frontend experience and Express with MySQL for efficient backend processing and data management.
- Deployed and optimized the application on Vercel, ensuring reliable performance, scalability, and a seamless experience across desktop and mobile devices.

EXPERIENCE

Freelance Developer — MERN Stack | JavaScript | React | Node.js | Express | MongoDB | Vercel   2024 - Present
- Designed and deployed responsive, user-focused web applications for clients across gaming, business, and creative industries, ensuring clean design and optimized performance.
- Developed full-stack solutions using React, Node.js, and Express, integrating secure databases and custom APIs for dynamic, data-driven functionality improving customer interactions by 25%.
- Collaborated with clients to translate project goals into scalable technical implementations, maintaining strong communication from concept to deployment.
- Implemented UI/UX best practices to deliver modern, visually engaging interfaces tailored to client branding & user needs.
- Managed end-to-end project workflows — including version control, testing, deployment, and ongoing maintenance — ensuring reliability and long-term scalability.
- Leveraged platforms like Vercel and GitHub for efficient deployment, CI/CD automation, and version management.

Kampgrounds of America, *Mt. Shasta, CA - Maintenance Supervisor*   2022 - 2025
- Led property maintenance operations, ensuring high standards of cleanliness and functionality across facilities, including pools and maintenance equipment.
- Supervised maintenance staff, ensuring timely completion of work orders and seasonal tasks, improving workflow by 20%.
- Streamlined daily office functions, including cash management and till closing, ensuring accurate financial reporting.
- Implemented quarterly maintenance schedules, enhancing property appearance and guest satisfaction.

EDUCATION

BloomTech — *Full Stack Web Development Program*   03/2024 - 2025
